Safety Instructions:

- Before use, check that the workbench is standing on a stable and level surface to prevent it from tipping over or toppling.
- Avoid overloading the worktop beyond the maximum load capacity of 800 kg.
- Take care not to place any parts or tools under the furniture to avoid injury.
- Assembly should be carried out in accordance with the instructions to ensure that the construction is stable.
- Keep small children away from the workbench to avoid the risk of injury from drawers and pull-out parts.
- Take care when lifting heavy loads to avoid injury.
- Only use the workbench for its intended purpose in order to avoid damage or accidents.
- Ensure that heavy objects are evenly distributed on the workbench to avoid overloading the drawers.
- During assembly, make sure that all parts are correctly screwed together to ensure stability.
- Keep small parts and tools away from children to avoid injury.
- The workbench is designed for commercial use and should not be used by children.
