Safety Instructions:

- Only use the workbench on a level, smooth and stable surface to avoid the risk of tipping.
- Secure the mobile workbench during use to prevent it from tipping or slipping.
- Make sure there is sufficient space around the workbench to avoid interference and injuries.
- Assemble the workbench parts correctly in accordance with the instructions to maintain the safety level.
- Changes to the design or improper parts can impair the safety level.
- Ensure safe operation and proper use of the mobile workbench.
- Avoid edges and sharp parts to minimise the risk of injury.
- Transport the workbench taking the load capacity into account to avoid overloading.
- Take particular care when handling heavy equipment or material to prevent injury.
- If necessary, wear appropriate personal protective equipment, e.g. hand, foot and eye protection.
- Carry out regular maintenance and inspection of the workbench to ensure its safety.
- Avoid overloading the workbench to prevent the structure from tipping or breaking.
- Keep body parts away from moving parts of the workbench to avoid injury.
- Use personal protective equipment (PPE) when working with tools on the workbench.
