Safety Instructions:

- Store safely to avoid the risk of falling or injury. Ensure that the storage box is stored in a safe place.
- The box is not suitable for the transport of hazardous substances.
- Avoid overloading the box to minimise the risk of cracking or breakage. Only use the box for its intended purpose; avoid overloading.
- The box should be checked regularly for damage when used in extreme weather conditions. Ensure that the box is not exposed to excessive temperatures.
- To avoid damage, the box should only be used for its intended purpose.
- The box is not suitable for use by children without supervision, especially when accessing items stored in it.
- Secure the box with a lock if it is used to store valuable items.
- Use the sturdy castors and handle to prevent injuries during transport.
