Article Numbers: 660880, 660876

Safety Instructions:

- Carry out an electrical safety check before connecting to the power supply.
- Not suitable for use by children without supervision. Keep the light away from children to minimise the risk of injury or damage.
- Take care when using in damp environments; the light is not suitable for use in damp rooms as this could damage the electrical components.
- Do not touch the lamp head when it is hot and the light is switched on. Due to the material used, the light may become hot during operation; do not touch the light with your hands when it is switched on.
- Touch-sensitive switch: Avoid touching when hands are wet.
- Do not cover the appliance or use it near flammable materials.
- Ensure that the motion sensor is positioned correctly to avoid unintentional switch-off.
- To avoid electric shock, the light should only be installed and used in accordance with the manufacturer's instructions.
- In the event of malfunctions or damage to the light, it is important to consult the manufacturer or a specialist for replacement and repair.
