Safety Instructions:

- Risk of electric shock due to improper use of electrical parts.
- Ensure that the appliance is not operated by children, as there are small parts and potential choking hazards.
- Avoid using the printer near water or in damp environments to minimise electrical risks.
- Only use the recommended toner cartridges to ensure safe and effective operation.
- Follow the specified safety precautions when handling toner, as it could be considered harmful to your health.
- Make sure that the printer vent is not blocked to prevent overheating.
