Safety Instructions:

- Maximum load capacity: 500 kg, do not exceed this.
- Safety note: High load capacity of up to 500 kg, make sure that the trolley stands on a stable surface and take particular care with heavy loads.
- Ensure that the trolley is standing on a level surface to prevent it from tipping over.
- Regularly check swivel and fixed castors for damage and functionality to prevent accidents.
- Product is not intended for use by children; keep children away.
- Beware of possible cutting and crushing hazards on the grid walls.
- Use additional goods securing devices, such as tensioning straps, to reduce the risk of accidents.
- Ensure that castors are working properly and that freedom of movement is guaranteed to minimise the risk of tipping over.
- Before using the mobile container, check its safety and stability, especially in commercial environments.
- Before use, ensure that there are no defects in the product.
- Read the instructions for use carefully and observe them.
- The product should not be stored outdoors in weather conditions to avoid material wear.
