### Safety Instructions:

- Attach warning labels to prevent injuries from sharp edges. The use of gloves during handling is recommended.
- Observe suitable weight and load capacity to prevent tipping or breaking.
- Protect product from direct moisture to prevent corrosion of the galvanised steel. Avoid contact with water or liquids to maintain structural integrity.
- Include instructions for safe installation and use. Ensure that the shelf is fitted in accordance with the intended specifications to avoid stability risks.
- Keep out of the reach of children, as sharp edges can pose a risk of injury.
- The products should be checked regularly for wear or damage to ensure product safety.
