Safety Instructions:

- Before use, ensure that the product complies with the general safety requirements.
- When handling, ensure that the maximum load capacity of 500 kg is not exceeded.
- To prevent accidents, the castors must be secured during prolonged use. Operate the brakes correctly.
- The drawers should only be loaded with the maximum load capacity of 50 kg per drawer.
- Use cylinder locks and central and individual locks to prevent unauthorised access.
- During use, ensure that no parts can become trapped.
- Take into account the selected position of the drawer cabinet to prevent it from tipping over. Secure when fully extended.
- Keep children away from using and accessing the cabinet.
- Ensure that all moving parts are regularly maintained and free of obstructions.
