Please note the technical data of the products!

Article Numbers: 883501, 883500, 883499, 883498

Safety Instructions:

- Wear personal protective equipment, such as safety shoes, to avoid injury.
- Do not exceed the maximum load capacity of 370 kg. Avoid overloading the trolley.
- Do not exceed the maximum load capacity of 220 kg. Do not overload the trolley.
- Only use the trolley on level surfaces to prevent the risk of it tipping over.
- Ensure that loads have a secure hold on the non-slip rubber mat and check it regularly.
- Regularly check the wheels and castors (swivel and fixed castors) for wear and safety to ensure safe movement.
- Manoeuvre carefully in confined spaces to avoid collisions.
- Make sure the push bar is at an ergonomic height to avoid back injuries.
- Not suitable for use by children as there is a risk of small parts and loads.
- Ensure that the push bar is held in place during use to prevent uncontrolled movements.
- Use the trolley on firm, level surfaces to avoid falls.
- Avoid long/excessive loads for greater safety when driving.
