Article Numbers: 147276, 147275, 147274, 147273

Safety Instructions:

- Do not exceed the maximum load: 110 kg.
- Keep small children away from adjustable parts and small parts to avoid injury and choking hazards.
- Regularly check the furniture legs and the stability of the chair for damage to minimise the risk of tipping over or other instabilities.
- Do not use the chair in extreme temperatures or high humidity and keep it away from heat sources and direct sunlight to avoid damaging the material.
- Make sure that the chair is placed on a stable, level surface and not on uneven ground to prevent it from tipping over or falling.
- Follow the cleaning instructions and use only recommended cleaning agents and methods to prevent material damage.
- Keep the chair away from children as it is designed for use by adults to avoid the risk of suffocation and injury.
- Avoid the risk of electric shock due to improper use or damage to the electrical components.
- Do not allow any sudden movements or uncontrolled lowering of height-adjustable functions in order to avoid injuries.
- Ensure that all adjustment elements are correctly locked and that the chair is suitable for the intended use to prevent misuse and injury.
- Make sure that the seat height and depth are correctly adjusted to ensure an ergonomic sitting posture.
- Include the instructions for use and installation instructions in plain language to prevent misuse.
- Ensure protection against injuries caused by sharp edges or moving parts.
- Avoid the risk of slipping due to unsuitable surfaces when using hard rollers.
