Safety Instructions:

- Ensure that the cabinet is securely mounted and placed on a stable surface to prevent it from tipping over.
- Avoid loading the cabinet with excessively heavy loads or loads exceeding the maximum weight capacity to prevent stability problems.
- Do not stack objects above the top edge of the cabinet to minimise the risk of them falling over.
- The product must be kept out of the reach of children, as small parts may pose a choking hazard. Use by children under 3 years of age is not recommended.
- If self-assembly is required, it should only be carried out by adults and in accordance with the instructions to ensure safety and stability.
- Take care with sharp edges to avoid cuts.
- Ensure that roller shutter doors are properly locked to prevent unauthorised access and injuries.
- If the product is damaged, discontinue use and contact the supplier.
- Keep the cabinet away from sources of fire and direct sunlight.
- Do not use the cabinet near water sources to avoid short circuits.
- The materials used are not suitable for contact with food after assembly.
