Safety Instructions:

- Choking hazard due to small parts if incorrectly assembled or used.
- Damage caused by the cabinet falling over if it is not properly installed or secured.
- Ensure that the filing cabinet is placed on a stable, level surface to prevent it from tipping over.
- Ensure that the cabinet is kept away from children to avoid injury; there is a risk of injury from tipping over.
- Avoid overloading the shelves to ensure stability.
- Follow the assembly instructions carefully and use suitable tools to ensure safe assembly.
- Keep the cabinet away from direct heat sources, direct sunlight and moisture to avoid damaging the wood.
- Use suitable cleaning agents to avoid damaging the surface of the wood.
- Self-assembly may require tools, observe safety instructions during assembly.
- The edges of the cabinet can be sharp, so handle with care.
- Only use the product for its intended use as a filing cabinet.
- Observe the maximum load when storing heavy files, store heavy objects in the lower area.
- Make sure that heavy objects are not placed on top to prevent the cupboard from tipping over.
- Assembled furniture should be checked regularly for stability and screws tightened if necessary.
- Improper use may result in injury or damage.
