Safety Instructions:

- Be aware of the dangers of operating near water or damp areas.
- Only use the air conditioner in accordance with the manufacturer's instructions.
- The appliance must not be operated in areas where carbon dioxide or other airborne pollutants are likely to be present.
- Keep the appliance away from children and pets.
- Avoid blocking the air supply and the air outlet.
- Ensure that the appliance is installed correctly to avoid the risk of falling and injury.
- Unplug the appliance if you are going to be away for a longer period of time or before carrying out maintenance.
- Be aware of the risk of electric shock when handling electrical components.
