Article Numbers: 661048, 661047, 661045, 661044, 661043, 661041

Safety Instructions:

- Risk of suffocation due to improper use, especially by small children. The ball is not suitable for children under 3 years of age.
- Ensure correct air inflation according to the instructions to prevent the ball from bursting and causing injury.
- Regularly check the ball for damage. If the ball is damaged or worn, stop using it immediately.
- To avoid injury, do not use the ball as a toy. Not suitable for children; do not use without supervision.
- Alternate between ball and chair every 30 minutes to prevent back pain and support posture.
- Do not use above the recommended maximum load: max. 120 kg for Ø 550 mm, max. 150 kg for Ø 650 mm and Ø 750 mm.
- Protect the product from sharp objects and extreme temperatures.
- Keep the ball in a safe place during use to prevent it from falling and rolling away. Use on flat surfaces is recommended.
- Use the carrying handle during transport.
- For users with special needs, take special care when using with other products.
