Safety Instructions:

- The height of the stool should be adjusted in accordance with the instructions to avoid the risk of falling. Check the stability regularly, especially when adjusting the height.
- To avoid injury, do not stand on the stool or use it as a staircase.
- Make sure that the stool is placed on a stable and flat surface to minimise the risk of tipping over.
- The non-slip base provides additional stability. Nevertheless, it should be placed cleanly and on a stable surface to avoid wobbling.
- Children should be supervised by an adult to avoid accidents. The stool is not designed for use by children. Keep it away from children to avoid the risk of suffocation.
- Please note that the stool is designed for people weighing up to 110 kg. Do not exceed this weight to ensure stability.
- The stool should be used in accordance with the recommendations of the Institute for Health and Ergonomics (IGR).
- There is a risk of slipping due to improper use on smooth surfaces.
- Only operate the height adjustment safely if it is discreetly plugged in and crushing is avoided.
