Article Number: 661159

Safety Instructions:

- Only use the headset within the recommended range (up to 30 metres).
- Ensure that the headset is stored in the correct temperature and humidity range.
- The microphone can be activated or muted by lifting it; be sure to use it responsibly.
- Do not use the headset while driving or in dangerous situations where you need to hear your surroundings.
- To avoid hearing damage, set the volume to a safe level and do not use high volumes for long periods of time.
- The use of the busylight requires attention in order to avoid interruptions in the flow of conversation.
- The headset is dangerous if used improperly (e.g. due to improper connection to devices), avoid such use.
