Safety Instructions:

- Ensure that installation is carried out in accordance with the instructions in order to avoid the risk of falling or tearing off.
- Regularly inspect for cracks, damage or wear and tear and repair or replace as necessary to ensure proper function.
- Ensure that hose connections are correct and tight to prevent water damage.
- Do not overload the product; do not exceed the maximum flow rate of 12.5 litres per minute.
- During installation, ensure that the surrounding area is free of sharp edges to prevent damage to the material.
- Careful mounting on stable surfaces is required to ensure a secure hold.
- Avoid contact with sharp edges or pointed objects to prevent damage.
- Store in a dry place to avoid long-term exposure to moisture.
- Do not store the tarpaulin near sources of ignition or naked flames.
- Before use, ensure that the magnetic fastenings function properly and hold.
- Only use suitable garden hoses to drain the water.
- Read and follow the instructions for use carefully before use.
- Caution: Contains wet or slippery surfaces that can lead to falls.
- Use only for the intended purpose - not intended for use with hazardous chemicals.
- Ensure that the fastening magnets are firmly in place to prevent the tarpaulin from slipping off.
- Check the tarpaulin for damage before use and do not use a damaged tarpaulin.
