Safety Instructions:

- Caution: The bulb should only be replaced by qualified personnel.
- Check regularly that the light is mechanically stable and not damaged.
- Protection class IP 20: Not suitable for use in damp or wet environments.
- Avoid operating the light near water or wet surfaces to reduce the risk of electric shock.
- The fitting must not be subjected to loads from objects that are too heavy or unusually shaped, which could lead to instability.
- The light should be disconnected from the power supply before maintenance work is carried out.
- For safe use, the instructions and safety information on the product should be clearly legible.
