Safety Instructions:

- Only use gas cylinder stores for the storage of suitable cylinders.
- Always lock hinged doors correctly.
- Permanently prevent access for unauthorised persons, use a proper locking system.
- Regularly check the steel structure for damage or corrosion.
- Anchor the gas cylinder store securely to prevent it from tipping over.
- Maximum load: Do not exceed 210 kg.
- Only use the product outdoors and take protective measures against the effects of the weather.
- In extreme weather conditions (storms, rain), make sure you are adequately secured.
- Keep the gas cylinder store in a well-ventilated area.
- Avoid naked flames or other sources of fire in the vicinity of the storage location.
- Watch out for sharp edges or pointed components when handling.
- Read the instructions and safety information carefully.
- Only authorised persons have access to the gas cylinder store.
- Store securely to prevent unauthorised access.
- Take care when handling heavy gas cylinders to prevent injuries.
- Storage conditions must maintain the integrity of the gas cylinders.
