Safety Instructions:

- This cabinet must not be used to store flammable substances.
- Observe the specific rules and regulations of your country for the storage of corrosive chemicals.
- In the event of fire, the self-closing doors close automatically at 74°C.
- Use only recommended by trained specialists.
- The design ensures leak-proof storage of chemicals.
- Use only for the storage of corrosive chemicals and non-flammable liquids.
- The manually closing doors should always be fully closed to ensure safety.
- Knowledge of the country-specific regulations and provisions on the storage of hazardous substances is required.
- Clarify the possible applications with the responsible authority before use.
