Safety Instructions:

- Only use for the storage of non-flammable etching agents.
- Observe the country-specific regulations and provisions before use.
- The fusible link in the self-closing doors is active at temperatures above 74°C.
- Ensure that the door closes properly to protect the contents in the event of fire.
- Use removable polythene inner lining for easy cleaning of drips and leaks.
- Store corrosive substances in accordance with the safety regulations.
- Prevent chemical substances from coming into contact with heat sources.
