Safety Instructions:

- Risk of suffocation due to improper handling or small parts of the electrical components; take care when handling moving parts.
- Risk of electric shock if the electrical components, the control panel or the USB charging station are used improperly. Ensure that they do not come into contact with water or are damaged.
- Risk of injury from sharp edges, table tops falling over if not assembled correctly and crushing parts when adjusting the height. Make sure that there are no people or objects in the way to avoid collisions.
- Avoid overloading beyond the maximum load capacity of 80 kg to ensure the stability and safety of the table.
- Ensure that safety information on using the appliance is easy to understand and transparent, especially when handling the control panel and cable organisation.
- Safety measures when using mobile parts that may pose a risk to body parts. Height adjustment should only be carried out by adults and while standing.
- Product is not suitable for children under 12 years of age; ensure inaccessible areas for children to avoid accidental injury.
- Regularly check the stability and safety of the desk, especially the electrical components. Read the operating instructions carefully and keep them in a safe place.
