Safety Instructions:

- Do not exert excessive force when mechanically adjusting the height. Follow the safety instructions and keep the height adjustment away from children to avoid injury.
- Maximum load capacity of the table: 80 kg on the main table top and 20 kg on the connecting corner. We recommend not exceeding these values.
- Use the levelling glides to ensure stability on uneven floors. Ensure that the desk is placed on a stable surface to prevent it from tipping over.
- Avoid electric cables in the height adjustment area to prevent the risk of electric shock.
- Regular inspection of the mechanical parts for wear or damage is recommended.
- Always keep the workplace free of clutter to avoid injuries from falling.
- Do not use the desk for children under 3 years of age and keep it out of the reach of small children to avoid the risk of suffocation. Ensure that no loose parts pose a hazard.
- Environmentally friendly disposal of packaging materials is recommended.
- Carefully read and follow the instructions for use and the selected safety instructions before installing and using the product.
- Ensure correct connections and stability during assembly to prevent tipping or accidents.
- Avoid risk of injury from sharp edges and falling objects.
