Safety Instructions:

- Make sure that the cabinet is stable and stands on a stable and level surface to prevent it from tipping over.
- The maximum load on the shelves must not exceed 15 kg. Please take care not to overload the cabinet.
- The top and bottom of the cupboard must not be loaded with more than 10 kg and 30 kg respectively.
- Ensure that the manufacturer's instructions are followed during installation.
- Use suitable tools and wear suitable personal protective equipment.
- Do not use the cupboard as a toy; avoid the risk of suffocation from small parts.
- Secure the cabinet in strong winds or understressed conditions to prevent it from tipping over.
- Keep small children away from the cupboard to avoid injury.
