Safety Instructions:

- Make sure that the filing cabinet is placed on a stable and level surface to avoid the risk of tipping.
- The individual load of the shelves must not exceed 10 kg each and the lower shelf must not exceed 30 kg.
- Avoid placing heavy or bulky objects in a way that could cause the cabinet to sway.
- Keep the filing cabinet away from sources of water to prevent damage to the surface coating.
- Regularly check the functionality of the doors and the damping to minimise noise and possible damage.
- Follow the manufacturer's instructions during installation to ensure safety and stability.
- Improper use can lead to instability, which can result in injury.
- Set up out of the reach of children to avoid dangerous situations caused by falling over or crushing.
