

# Product Safety Information

## BOI patient documentation folder, various designs

Please note the technical data of the products!

**Article Numbers:** 661364, 661362, 661358, 661356, 661355

### Safety Instructions:

- Include mandatory labelling on the product or packaging.
- Provide safety information in an understandable language.
- If necessary, label the product as hazardous in the event of unforeseen use or manipulation.
- Inform the manufacturer immediately of any newly discovered safety defects.
- Protect the product from moisture and extreme temperatures.
- Follow the recommendations for safe handling.
- Regular inspection for damage or wear.
- Take special care when shopping or using with children.
- Caution: The product contains PVC, which may contain plasticisers. Avoid excessive exposure. However, the product is REACH compliant.
- Keep the product out of the reach of small children to avoid the risk of choking on small parts.
- Avoid strong heat or direct sunlight, as this can damage the material.
- Ensure that the product is used properly and not overloaded to avoid mechanical damage.
- Not suitable for children under 3 years due to small parts.
- The use of improper materials can lead to health risks.
- Care must be taken when coming into contact with liquids to avoid damaging the transparent pockets and the material.
- The product should be used under adult supervision.
- Risk of electric shock and other safety risks due to use in an environment with electrical components, if present.
- Check for any damage or wear before use to avoid injury.
- The folder is not suitable for storing flammable or hazardous materials.
