Please note the technical data of the products!

Article Numbers: 661519, 661518

Safety Instructions:

- Risk of suffocation due to improper stacking under excessive load.
- Risk of injury due to unstable positioning when overloading the chair.
- Use the chair in accordance with the specified maximum load capacity of 110 kg.
- Observe fire resistance in accordance with DIN 4102-B2 and avoid corresponding use; suitable measures should be taken to avoid direct exposure to heat.
- Observe the safety instructions in the enclosed manual.
- Choking hazard due to the possibility of small parts being ingested by small children, as the chair is also used in areas where children may be present.
- Risk of electric shock due to improper use or damage to electrical components, if present.
- Risk of slipping if several chairs are stacked, especially if they are placed on a slippery surface.
