Safety Instructions:

- Maximum load capacity: 1000 kg. Take care not to overload the pallet to avoid accidents caused by overloading.
- Avoid falls or impacts during transport to prevent injury or destruction.
- Ensure correct technique when handling the lightweight pallet to avoid back injuries.
- Pallet can be driven under on 4 sides; floor must be level to prevent tipping.
- Protect the anodised, corrosion-resistant surface from strong alkaline or acidic cleaning agents, direct sunlight and extreme weather conditions to extend its service life.
- Pallet is recyclable; ensure correct disposal in accordance with local regulations.
- Only use the pallet for its intended purpose to avoid injury.
- The pallet could slip on smooth surfaces; use a suitable base.
- Safety information must be clearly visible. Operating instructions must be easy to understand.
