E-Mail: info.de@treston.com

Please note the technical data of the products!

Article Numbers: 465253, 465252, 465251

Safety Instructions:

- Choking hazard due to improper handling of tools suspended from the perforated plate. The perforated plate must not be used as play equipment to avoid the risk of suffocation.
- Risk of injury due to incorrect installation or overloading of the perforated plate. Do not exceed the maximum load of 50 kg.
- Danger due to electrostatic discharge, even if the product is ESD-safe. When used in sensitive areas, ensure that ESD specifications are complied with. Electrostatic sensitive devices should not be placed down directly.
- Ensure that the installation instructions are followed before use to ensure safety during use. The manufacturer's instructions must be observed when mounting.
- Only use for the intended purpose. The perforated plate is suitable for use in ESD-sensitive areas.
- Ensure that the perforated plate is properly mounted to prevent it from falling. When using heavy tools or when mounting on unstable surfaces, ensure that it is stable.
- Keep out of the reach of children to avoid injury.
