Safety Instructions:

- Not suitable for children under 3 years of age due to the risk of choking on small parts. The case should not be used by children without supervision, as parts could break off and be swallowed. The case should be kept out of the reach of children to prevent injury from improper use.
- Only intended for transporting small parts; do not expose to heavy mechanical loads. Take care not to overload the case with heavy or sharp objects in order to avoid damage.
- Protect from moisture and humidity to prevent rust and material damage. Corrosion of the steel material may occur if the case is used in damp environments; please store accordingly.
- The assortment case is not suitable for storing chemical, explosive or other hazardous materials.
- Ensure that the case is always closed when not in use to prevent small parts from escaping.
- Take care when transporting the case; improper use can lead to injuries. Avoid opening or closing the case improperly to prevent the risk of injury from the tension locks.
- Regularly check that all fasteners and the handle are in good working order.
