Safety Instructions:

- Risk of suffocation from small parts if handled incorrectly, ensure that children are not left unattended.
- Risk of electric shock due to faulty electrical connections and when used near water sources, ensure safe use of the integrated power supply.
- Risk potential due to unsecured transport conditions for heavy appliances, ensure that the trolley is on a level surface to prevent it from tipping over.
- Ensure that the product is not used as a toy by children.
- Check the condition of the cables and plugs regularly to avoid the risk of fire.
- Use the product in accordance with the instructions and only for its intended purpose.
- Using more than the maximum recommended load can make the product dangerous.
