Please note the technical data of the products!

Article Numbers: 402609, 402608, 402607, 402603, 402602, 402601

Safety Instructions:

- Avoid contact with liquids to prevent electrical faults and the risk of slipping.
- Keep the surface clean and dry to ensure ESD conductivity. Use suitable ESD protection measures in electrostatic environments.
- The table top should only be used in suitable, controlled environments and should be checked regularly for visible damage. Damaged products must not be used.
- Avoid contact with abrasive cleaning agents or aggressive chemicals so as not to damage the lamination.
- Ensure that the tabletop is not suitable for use in environments with extreme temperatures or humidity.
- Make sure that no heavy objects fall onto the worktop and avoid working with pointed or sharp objects.
- Store the table top in a dry place to protect the material from moisture.
- Only use the table top in accordance with the intended conditions of use.
- Avoid contact with sharp objects so as not to damage the lamination.
- If handled incorrectly, sharp edges or corners can cause injuries.
