Article Numbers: 661976, 661971

Safety Instructions:

- Ensure maximum stability and safety when adjusting the height. Make sure that the height adjustment is carried out correctly to avoid injuries.
- Avoid overloading the tabletop with more than 20 kg. Do not exceed the maximum load: The tabletop can withstand a load of up to 20 kg.
- Make sure that no objects get under the tabletop to avoid injury.
- The corner connection plate is not suitable for children under 3 years of age.
- Ensure that the connection to other tables is properly established to prevent tipping.
- Avoid interaction with other pieces of furniture to minimise the risk of falling.
- The moving parts must be checked regularly for proper functioning to ensure that there are no sources of danger.
- Ensure that the glides are levelled to ensure stability and safety.
