Article Numbers: 661970, 661967, 661963, 661958, 661956, 661949, 661942, 661940

Safety Instructions:

- Do not use the desk as play or climbing equipment and supervise children to avoid danger.
- Remove all objects on the tabletop before adjusting the height to avoid the risk of falling.
- When adjusting the height, ensure that no body parts or objects can get caught in the mechanism and that it is only carried out by adults to avoid injury.
- When using the desk, at least two people should always be present to ensure safe height adjustment.
- Ensure that the desk is placed on a stable, level surface and regularly check the stability and the levelling glides to prevent the desk from tipping.
- The maximum load capacity of the desk is 80 kg. Do not exceed this limit to avoid damage or accidents.
- Ensure that the desk is correctly assembled and that all connecting parts are stable to avoid tipping over.
- If the desk frame or tabletop is damaged, stop using the desk and contact customer service.
- Secure all moving parts before use to avoid injury.
- Only adjust the height while standing and take care not to trap any body parts to avoid injury.
- Point out that the product does not contain any harmful chemicals and complies with the applicable safety standards.
- Follow and provide appropriate instructions for installation and safe use to ensure correct use of the product.
- Ensure that the materials do not contain any harmful chemicals and comply with the applicable safety standards.
- Regularly check the product for damage in order to recognise possible risks at an early stage.
- Make sure that the table legs are stable on the floor and that the levelling glides are correctly adjusted.
- When combining with other tables, ensure that all connections are stable to guarantee stability.
