Safety Instructions:

- Caution: Risk of injury due to improper use.
- Not suitable for children under 3 years of age due to small parts. Attention: The B 220 hole punch is not suitable for children under 3 years of age as small parts can be swallowed.
- For safe use: only use on firm and stable surfaces to minimise the risk of injury.
- If the mechanism is blocked, do not force it open as this may jeopardise safety.
- Choking hazard due to small parts if handled incorrectly.
- Avoid cutting or crushing - risk of injury if handled incorrectly. Caution: Do not touch the cutting parts during use to avoid cutting injuries.
- Protect the device from moisture and heat - risk of fire and damage. Keep the hole punch dry and avoid contact with water to prevent rust and electrical problems.
- Make sure that the hole punch is not overloaded to prevent the paper from jamming or the device from being damaged.
