Safety Instructions:

- Only use the product in dry indoor and outdoor areas to avoid water damage or short circuits.
- Switch off the power before installation to prevent electric shock.
- Make sure that the motion detector is installed out of the reach of small children to prevent injuries caused by improper use.
- Check the installation location to ensure that no direct precipitation can fall on the device, even if it is IP44 certified.
- Observe the maximum load and do not exceed excessive wattage for the connected lights to avoid overheating.
- To avoid electric shock, ensure that the motion detector is installed correctly and in accordance with the instructions.
- The motion detector is splash-proof (IP44) and should not be immersed in water.
- If there are any signs of damage to the appliance, stop using it immediately and contact the manufacturer.
