Article Numbers: 661668, 661665, 661559, 661557, 661551, 661548

Safety Instructions:

- Observe increased contact protection measures.
- Do not overload the product: Do not exceed the maximum load.
- Avoid use in damp or wet conditions. Only suitable for dry indoor areas.
- In the event of faults or damage, disconnect immediately and contact a specialist.
- Never remove the cover of the safety switch or tamper with the product.
- Do not leave unattended while appliances are connected.
- Choking hazard due to improper use of the multiple socket outlet. Not suitable for children under 3 years of age.
- Risk of electric shock in the event of unprotected access or improper use of the sockets.
- Avoidance of overloading when using several devices at the same time.
- Keep a safe distance from water sources. Do not use in splash water areas.
- Do not connect the socket strip to another socket strip.
- Ensure that the maximum load is not exceeded in order to avoid overheating.
- Do not use the socket strip under cover or in closed rooms that do not allow airflow.
- Only use the multiple socket outlet with devices that meet the specified requirements.
- Switch off the safety switch when the multiple socket outlet is no longer required.
- The use of nails or screws other than those intended can damage the socket strip.
- Keep the multiple socket outlet out of the reach of children.
- Ensure that the safety switch is working properly to avoid dangerous overloads.
- The multiple socket outlet is not suitable for outdoor use unless it has been specially designed for this purpose.
