Safety Instructions:

- Only use the multiple socket outlet to supply power to devices that are compatible with the rated current of 16 A.
- The multiple socket outlet is not suitable for outdoor use.
- Make sure that the socket strip is not overloaded to avoid overheating and fire risks.
- Keep the socket strip away from water and moisture to avoid the risk of electric shock.
- The multiple socket outlet should not be used in areas with high humidity or dust.
- Keep the power strip out of the reach of children to minimise the risk of injury.
- Do not use the multiple socket outlet if the cable is damaged or the multiple socket outlet has visible defects.
- Disconnect the power strip from the mains when it is not in use.
