

Product Safety Information

USB 2.0 charging/data cable Good Connections, USB-C to USB-C, power 240 W, up to 480 Mbit/s, black, various lengths

Manufacturer/Responsible Person: Alcasa Elektronik AG, Köllner Straße 2a, 66292 Riegelsberg, Deutschland

E-Mail: info@alcasa.de

Please note the technical data of the products!

Article Numbers: 661764, 661754, 661756, 661750

Safety Instructions:

- Take care not to exceed the charging and data transfer rate to avoid overheating and possible damage to the device.
- Only use the cable with devices that support Power Delivery and with compatible devices to ensure safe use and avoid overheating. The maximum charging power of 240 W should not be exceeded.
- Keep the cable away from water and other liquids and do not use in damp environments to minimise the risk of electric shock.
- The cable should not be used near heat sources or in areas where it could be exposed to physical damage. Also do not overheat or overstretch.
- Do not leave the cable unattended near children as it could be considered a strangulation hazard and watch out for injuries caused by improper use.
- Caution! Risk of electric shock if the cable is used incorrectly or damaged. Beware of short circuits in the event of improper handling.
- Check the cable regularly for damage to avoid short circuits.
- The cable should only be used for the intended applications to prevent damage to the devices.
- Safety information should be provided in the language of the country in which the product is offered.
- Please ensure that the connections are cleaned before use to ensure a stable connection.
