Article Numbers: 524217, 524214, 524211, 524205, 524202, 524199, 524196, 524193, 524190, 524187, 524184, 524181, 524178, 524175, 524172, 524169, 524166, 524163, 524160, 661793

Safety Instructions:

- Observe the maximum shelf load: Do not exceed 130 kg, 140 kg or 185 kg depending on the model to ensure safety.
- Do not exceed the maximum bay load of 1000 kg or 1200 kg to ensure stability.
- Place the shelf on a stable, level surface to prevent it from tipping over.
- Assemble the shelving properly and keep all parts correctly assembled to ensure safety.
- Protect from direct sunlight and heat sources to prevent material damage.
- Store lighter items in the upper compartments and heavier items at the bottom to ensure stability.
- Do not leave children unattended near the shelf to avoid the risk of injury.
- When using as a room divider, ensure sufficient stability and even weight distribution.
- Check shelving regularly for stability and wear.
- Do not continue to use the shelf if it is damaged or shows signs of wear.
- Carefully observe and follow all safety instructions and installation instructions.
- Use the shelf with the intended properties and weight limits to prevent it from tipping over or breaking.
- Before moving the shelf, ensure that it is empty and that all connections are stable to prevent it from falling over.
- Use stability measures such as bracing beams to ensure additional safety.
