Safety Instructions:

- Install the shelf in accordance with the enclosed instructions to ensure stability. Observe the manufacturer's safety instructions.
- Maximum load capacity: up to 185 kg. Only use the product within this load capacity to avoid safety risks.
- Maximum load capacity: up to 140 kg. Only use the product within this load capacity to avoid safety risks.
- Make sure that shelves are placed on a stable and level surface to prevent them from tipping over.
- Regularly check screw connections, stability and any damage to the shelving system to ensure safety.
- Keep children away from this furniture to avoid injury from climbing or falling over. Product not suitable for children under 12 years of age.
- Protect products from excessive load and ensure correct installation in the intended frame.
- Take protective measures against sharp edges and dangers from unsupervised children.
- Provide instructions for use and safety information in understandable language.
- Ensure that the product is handled carefully during installation to avoid injury from sharp edges.
- Ensure that other people are not standing in the danger zone while the shelving unit is being assembled or adjusted.
- Do not set up the shelf near heat sources or in direct sunlight. Protect the product from heavy contact with moisture, as it is not suitable for use outdoors or in a damp environment.
- Use suitable personal protective equipment such as gloves and safety goggles during assembly.
