Safety Instructions:

- Caution: There is a risk of suffocation due to improper use or arrangement of objects attached to the rear panel.
- The use of magnetic elements can lead to objects being pulled off unintentionally. Make sure that they are securely fastened.
- Safety instructions for assembly must be observed in order to avoid injuries when handling tools.
- The product is not intended for use by children without supervision. Ensure that accessories are attached and removed safely.
- If the product is damaged, in particular if it is cracked or chipped, it should no longer be used.
