Safety Instructions:

- The scales may only be used on stable, level surfaces to avoid inaccuracies and damage.
- Heavy loads must not be placed on the scales abruptly in order to prevent damage.
- The maximum load capacity is either 1500 kg or 3000 kg, depending on the model. These must not be exceeded in order to ensure safety.
- The scale must not be used in damp or wet environments in order to avoid electrical risks.
- Users should wear suitable protective measures such as non-slip shoes to avoid accidents.
- The readability is either 0.5 kg or 1 kg, depending on the weighing range. This must be observed to ensure accurate measurements.
- Regular calibration is required to maintain accuracy.
- Before use, ensure that the scale is calibrated and that all parts are correctly fitted.
- Check the scales regularly for damage and functionality.
- The floor scales are not suitable for use by children.
- Observe the safety instructions in the enclosed operating instructions.
