Safety Instructions:

- Ensure that the scale is placed on a stable, level surface to ensure accurate measurements.
- Do not overload the scales; do not exceed the maximum load capacities (note the various maximum load capacities: 6 kg, 15 kg, 30 kg, 60 kg, 150 kg, 300 kg).
- Ensure that the scales are calibrated and maintained before use.
- Avoid contact with liquids and do not use the scale in damp environments to prevent electrical damage.
- Users should handle the scale with care to avoid shocks and damage and protect it from strong magnetic fields and temperatures.
- Keep the scale clean, especially the weighing surface, for accuracy and longevity.
- Store the scales in a dry environment and protect them from extreme temperatures.
- Not suitable for children or for unsupervised play by children; the operating instructions and safety instructions should be observed during use.
- Users should carefully read all safety instructions and not exceed the maximum load capacity to avoid injury.
- Only use the scale within the supported weighing range.
- Switch off the appliance after use or disconnect it from the power supply and only use it with accessories approved by the manufacturer.
