Safety Instructions:

- Do not exceed the maximum bay load: 1000 kg or 1200 kg.
- Install the shelving system stably and securely on a level, stable surface
- protect it from tipping over.
- Attach and use securing pins, bracing crossbars and connecting elements correctly.
- Do not place heavy or unstable materials on higher shelves.
- For extended shelving units, use additional support or connecting elements to ensure stability.
- Regularly check the stability, wear and secure connection of screws and fittings.
- Provide and follow safety and installation instructions in understandable language.
- Only use the shelf in accordance with the prescribed safety requirements.
- Do not use in damp or unsafe environments, do not store flammable materials.
- Take care when converting or moving the shelving unit when empty.
- Only use optional accessories in accordance with the manufacturer's instructions.
- Keep children and vulnerable persons away from the shelf to avoid the risk of injury.
