Safety Instructions:

- Only suitable for storing dry and non-corrosive materials.
- Keep away from heat and heat sources, including open flames, to avoid melting or fire hazards and to prevent deformation due to overheating.
- Do not overload to avoid warping, breaking or tipping over. Pay attention to the maximum load limit.
- Keep out of the reach of children to avoid the risk of suffocation and injury from small parts and tipping over. Keep away from children under 3 years of age in particular.
- The lid of the box should always be completely closed to prevent accidental opening and to ensure safety.
- Avoid contact with sharp objects or the use of harsh cleaning agents to prevent damage to the material.
- The box is not suitable for storing food, even if it is BPA-free.
- The storage box is not suitable for transporting live animals.
- Do not use for food or liquid storage unless specifically authorised by the manufacturer.
- The box can break if used incorrectly, so always use with care.
- When stacking, ensure that the boxes are stable on a firm surface to prevent them from tipping over.
- Ensure stability when lifting by firmly securing the bow handle.
- Clean the box regularly to ensure hygiene and prevent mould.
- Only suitable for the safe use of non-flammable materials.
- Risk of suffocation due to improper stacking of overweight boxes.
