

Product Safety Information

AE Stainless steel scale Aqua ABW 16S

Manufacturer/Responsible Person: AE Adam GmbH, Instenkamp 4, 24242 Felde, Deutschland

E-Mail: info@aeadam.de

Please note the technical data of the products!

Article Numbers: 662520, 662501, 662495, 662492

Safety Instructions:

- Choking hazard due to small or loose parts and packaging material. Observe child safety.
- Risk of electric shock if handled incorrectly, especially when connecting the device or charging the battery. Do not use covered electrical contacts.
- Beware of overloading; the scales are equipped with overload protection. Do not weigh more than the maximum load capacity. Activate the overload protection.
- Use only in dry environments; avoid contact with water, except with IP68 certificate. Risk of short circuit in damp conditions.
- Hygiene instructions: Clean the scales regularly in accordance with the manufacturer's recommendations to ensure hygienic conditions.
- Improper use can lead to incorrect weighing results. Ensure that the scale is configured for the correct area of application.
- Only operate the scales with clean, dry hands and check regularly for possible damage, especially after use in dusty or dirty environments.
- Not suitable for use in potentially explosive atmospheres. The manufacturer should provide clear operating instructions for safe use and cleaning.
- Ensure that the scale is used in a stable and safe condition to prevent it from tipping over. It should be placed on a stable, level surface to avoid inaccuracies.
- Avoid direct contact with liquids or sharp objects to prevent damage.
