Please note the technical data of the products!

Article Numbers: 662531, 662530, 662512, 662511, 662505, 662502

Safety Instructions:

- Ensure that the product is used in accordance with the technical documentation and the general product safety regulations.
- Avoid damage due to improper use, especially during transport.
- The product may only be operated within the intended scope, especially when using rechargeable batteries. Observe the safety instructions for battery use to avoid overcharging or damage.
- Keep the product clean and dry, protect it from direct sunlight and extreme temperatures.
- When using the appliance, place it on a stable, level surface to avoid the risk of falling. Take care not to overload it.
- Do not use the product in damp environments and avoid operating the appliance with wet hands to prevent electric shocks or electrical damage.
- Keep the scales out of the reach of children and remember that they are not toys; careless use can result in injury.
- The device is recommended for use from the age of 14.
- Only operate with the recommended accessories to ensure safety.
- Take care not to use the appliance near water to avoid the risk of electric shock.
- Regular checking of the calibration is recommended to ensure accurate readings.
- Please note that the scales should not weigh objects with a maximum weight of more than 2000 g.
- Read the operating instructions carefully before using the product and ensure that it is only used in accordance with the instructions.
- When using the product outdoors, ensure that it is protected from moisture and extreme temperatures.
- Children may only use the product under adult supervision.
- The product may pose a health hazard if handled improperly.
