

Product Safety Information

AE bench counting scale CCT 20M, 20 kg

Manufacturer/Responsible Person: AE Adam GmbH, Instenkamp 4, 24242 Felde, Deutschland

E-Mail: info@aeadam.de

Please note the technical data of the products!

Article Numbers: 662527, 662523, 662516, 662515

Safety Instructions:

- The scale should only be operated in a dry environment; keep electrical components dry to avoid the risk of electric shock.
- Take care when handling the scales to avoid serious injury from lifting heavy objects.
- The scales must not be overloaded: maximum loads are 40 kg, 20 kg and 4 kg depending on the appliance.
- Using the scale in extreme temperatures or high humidity can affect the accuracy.
- Regular calibration and maintenance are required to ensure the accuracy of the measurements.
- Before commissioning, ensure that the power supply is connected correctly.
- Keep children away from the scales or use them under adult supervision to avoid injury.
- Only use the appliance for the intended applications and in accordance with the safety instructions.
- Only place and operate the scales on a stable and level surface to prevent inaccuracies.
- Protect the scales from moisture and extreme heat.
- The use of non-calibrated components can lead to incorrect measured values.
- Follow the instructions for safe use and disposal of the product.
