Safety Instructions:

- When using the BW-ECO-Plus battery strapping tool, all the manufacturer's safety instructions must be observed.
- The strapping tool is only suitable for use by adults who have been instructed accordingly.
- The appliance should never be used improperly to avoid injury from electric shock or mechanical hazards.
- Safety goggles and gloves should be worn during operation to avoid injury from sharp edges or flying parts.
- Observe the maximum tensioning force of 1500 N to avoid overstretching the strapping.
- The overmoulding tape has a high tear resistance. There is a risk of injury if handled incorrectly.
- The roll-off trolley should always be used on a stable and level surface to prevent it from tipping over.
